

Reading Part **03**

opinion matching

In this part, you will match people's opinions to statements. You will read four people's opinions on the same topic. Then you need to read seven statements and decide which person's opinion matches each statement.

A City Park: ANSWER KEY

16. Person A believes the park needs more efforts to reduce pollution.

Extract: "The issue with the city park is the pollution. The air is often filled with smog and the smell of exhaust fumes from the nearby road. It's difficult to breathe and enjoy the fresh air. The park should have more trees and plants to help purify the air and create a healthier environment. Additionally, the littering problem is out of control, with trash scattered all around. More waste bins should be placed throughout the park and regular cleaning should be implemented."

17. Person B wants the water in the park's pond to be clean.

Extract: "The water in the park's pond is heavily contaminated. It's discolored and emits a foul odor. This poses a risk to the aquatic life and the overall ecosystem. The authorities should take measures to treat the water and ensure its cleanliness. It would also be beneficial to educate visitors about the importance of not throwing waste into the pond."

18. Person C thinks the park should have better recycling facilities.

Extract: "The park lacks proper recycling facilities. There are only a few recycling bins, and they are often overflowing with mixed trash. It's essential to promote recycling and provide adequate bins for different types of recyclable materials. The lack of awareness and infrastructure for recycling is contributing to the pollution problem."

19. Person D is concerned about the noise pollution in the park.

Extract: "The noise pollution in the park is unbearable at times. There are constant honking sounds from the nearby traffic, loud music playing from portable speakers, and even construction noises. It's challenging to find a peaceful spot to relax and enjoy nature. Implementing stricter regulations regarding noise levels and designating quiet zones within the park would greatly improve the experience."

20. Person A thinks the park needs more trees and plants for a healthier environment.

Extract: "The park should have more trees and plants to help purify the air and create a healthier environment."

21. Person A is bothered by the air pollution in the park.

Extract: "The issue with the city park is the pollution. The air is often filled with smog and the smell of exhaust fumes from the nearby road. It's difficult to breathe and enjoy the fresh air."

22. Person A believes the park suffers from excessive littering. Extract: "The issue with the city park is the pollution. The air is often filled with smog and the smell of exhaust fumes from the nearby road. It's difficult to breathe and enjoy the fresh air. The park should have more trees and plants to help purify the air and create a healthier environment. Additionally, the littering problem is out of control, with trash scattered all around. More waste bins should be placed throughout the park and regular cleaning should be implemented."
